

Blake Reeves

Software Developer

EXPERIENCE

Old Hickory Buildings

June 2019 - Present, Murfreesboro TN (Partly Remote)

Software Developer

- Worked on front-end and back-end for internal company websites using HTML, CSS, Javascript, and PHP.
- Redesigned internal application with a modern layout focused on user experience with a responsive design using Flexbox and CSS Grid. Ensured that application is usable across desktop screen sizes and mobile devices, and added the ability to theme css files depending upon user company.
- Managed data integration from internal website to Salesforce through Api calls to parse information for inserting, updating, and deleting information.
- Learned how to develop in Salesforce using the Apex programming language and Lightning Web Components with no prior experience.

StaySense

April 2019 - May 2019, Franklin TN

Software Developer Intern

- Worked on front-end for in house application in React, integrating with Property Management Systems through Api calls in Node.js, and syncing data to MySQL Database.
- Attended AWS Summit in Atlanta, and gained knowledge and experience with AWS services.
- Worked closely with the lead developer through shadowing, code reviews, and completing assigned coding projects and challenges.

PROJECTS

CRWN Clothing

React | Redux | Firebase | Node.js | Express | Stripe

<https://crwn-clothing-blake.herokuapp.com/>

- An e-commerce web application with user authentication and google sign in integrated.
- Shop from the available categories, browse the available items, and manage your items with a built out cart feature.
- Ability to checkout out items via Stripe Api integration.
